Subdivision and Land Use Regulations under review for rewrite and update by Planning Commission and CD Director. Completion of this document expected to be done in house and without consultation. Protection and maintenance of water taps discussed among Finance and Public Works departments and noted for update not only in S & LD Regulations, but also Article 6 of City Code.

Comprehensive Plan and Housing Element: Staff is gearing up to prepare an RFP for consulting services related to a full rewrite of the 10-year Comprehensive Plan, a document required by state law.

Ongoing Subdivision development occurring at Prichard Farms and Sand Spring Run Phase 1 as well as Phase 2. Ongoing coordination with Public Works and Allegany County on Connection Permits and addressing, respectively. Our Annual Report to MDP reflected 9 new single family homes in Frostburg for the 2021 calendar year, all due to these developments.

Ongoing development in the Industrial Park: The 58,000 SF addition to Sierra Hygiene is well underway and nearing completion. Final plans for Smitty's fuel stop are on hold. We worked in conjunction with Allegany County to determine potential needs for stop lighting and intersection improvements at Rte. 36 and Village Parkway. An updated traffic study for a signal light warrant has been completed by Bennett, Brewer and Associates and no current warrants for signal lighting have been satisfied.

Collaboration underway with Allegany Arts Council, Allegany County Tourism, and Frostburg First to improve the Depot Gateway to the Business District. Application for funds made to DHCD, and Frostburg First is applying MSAC funds. Improvements currently based on public art projects including stenciling the sidewalk up to the business district with a timeline of Frostburg's history, improving way finding signage toward the business district, updating the "phone booth" adjacent to the turntable, and muralizing the wall below the Shogun rear deck area. Future plans include determining the best route to improve the rear deck area and building façade at the Shogun location.

CD Staff currently implementing software from iWorQ for web based tracking of permits, code enforcement, and rental housing. Software capabilities include, tracking processes, documenting requirements for inspections and follow ups, and generating notifications. CD and Finance have worked out online payment options and reporting. Online credit card payment capability went live late February, and Community Development and Finance worked out the reporting for such payments.

I told him that's fine, but we also need to discuss the other truck sitting in the middle of the yard without tags, to which he admitted that that vehicle is unlicensed and undrivable.
