Subject: Upper Savage River Flow Study at Savage Springs Pump Site

Dear Frostburg City Council,

The Savage River watershed supports the largest and healthiest population of brook trout in Maryland. Brook trout are listed in the State Wildlife Action Plan as a species of greatest conservation need and require pristine streams with cold and well oxygenated water to thrive. In 2019 and 2020, a water temperature and flow study was conducted in the Savage River watershed by Maryland Department of Natural Resources (Department), Fishing and Boating Services (FABS) and Resource Assessment Service (RAS) to improve our understanding of the influence of tributaries on the Savage River mainstem during summer months. Continuous temperature and instantaneous flow measurements indicated significant coldwater inputs from the Little Savage River and Poplar Lick Run tributaries during low flow conditions. This suggested that these two tributaries are important to mainstem coldwater fauna (e.g., brook trout and aquatic insects) during summer months. Conversely, Mucklick Run was identified as a major source of warmer water to the mainstem. Additionally, temperature monitoring in the upper portion of the mainstem Savage River revealed thermal issues related to lower forest cover, agriculture, and impervious surfaces. This information prompted the department to investigate the potential for coldwater inputs at Savage Springs, where the City of Frostburg has a water withdrawal permit. Estimates of daily flow combined with city water usage reports suggest that reducing water withdrawal may significantly increase stream flow and reduce water temperatures downstream to approximately Mudlick Run during the summer low flow period.

Department staff met with City of Frostburg officials in January of 2022 to discuss interest in a pilot study to investigate the potential for increased coldwater to the Savage River under three voluntary reduced water use scenarios for the summer of 2022. City officials were generally supportive of the pilot study. Methods for the pilot study are described below.

Methods: Water temperatures and stream flow data will be collected by department staff at one location upstream and at 3-5 locations downstream of the Frostburg Springs pump site. Data will be recorded between June 1, 2022 and August 31, 2022. Tentative site locations will be just above and below the pump site, upstream of Carey Run, Old Frostburg Road, and just upstream of Mudlick run.

The department requests three trial periods of voluntary reduced water use. These trials consist of 25 percent, 50 percent and 100 percent withdrawal reductions over approximately 12-24 hour periods when river base flows are low and stable and forecasts are absent of precipitation. The department will coordinate with city officials when conditions are suitable for each trial.

Hobo temperature loggers will be used to record continuous 15 minute temperature readings from June 1, 2022 to August 31, 2022. Staff may conduct flow measurements by hand before, during, and after each trial. Trail cameras will be put up at each temperature location to collect images of the stream to determine the flow curve before, during, and after each trial period.

Results of the pilot study will be provided to the City of Frostburg in a report. If results show a significant positive flow and cooling effect downstream, then the department would like to discuss possible ways to enhance the coldwater fishery in the Savage River while meeting water demands of the City of Frostburg.

Sincerely,

Dan Goetz

CITY OF FROSTBURG SCHEDULE OF MUNICIPAL FEES

REAL ESTATE TAXES: \$0.70 per \$100 of Assessed Value

The interest rate on real estate taxes is 1.5% per month beginning October 1 and is retroactive to July 1.

TRAILER/MOBILE HOME TAXES: \$5.00 per lot per month on each occupied mobile home lot; taxes are payable monthly by the land owner

PERSONAL PROPERTY TAXES: \$1.50 per \$100 of Assessed Value

Personal property taxes are assessed and billed throughout the fiscal year by the City as assessment certifications are received from the State Department of Assessments and Taxation. The due date for personal property taxes is not less than 30 days after the billing date. The interest rate on personal property tax is 1.5% and is added monthly to any delinquent amount due.

NOTIFICATION OF WATER SHUT OFF

The penalty for Notification of Water Shut-off is 10% of the total amount due or \$20.00, whichever is greater. The penalty is applicable upon notification to the customer regardless of whether the water service is actually terminated.
